

TITLES FOR THE CURE

Sponsored by:
Cahaba Title, Inc.

Are you at risk?

Most women have more than one known risk factor for developing breast cancer, yet will never get the disease. What is the most important risk factor? **Simply being a woman.**

Risk factors include:

- Getting older
- Having a family history
- Never having children
- Gaining weight after menopause

Who gets breast cancer?

Anyone can get breast cancer. For example, did you know...

- The older a woman is, the more likely she is to get breast cancer
- White women are more likely to get breast cancer than any other racial or ethnic group
- African American women are more likely to die from breast cancer
- Men can get breast cancer, although it is rare

For every title order closed in the year 2009, Cahaba Title will contribute \$1 to the **Susan G. Komen Breast Cancer Foundation**. Simply by ordering a title **YOU** can make a difference in the efforts to find a CURE!!
